**GET AHEAD
OF HAIR LOSS**

**Charity
Event**

30th September 2018

GET AHEAD OF HAIR LOSS

Hair loss from any cause is deeply traumatising for many people. Coping with hair loss is made even more challenging by confusing terminology, misleading information and a general lack of empathy towards its psychological impact.

The Get Ahead of Hair Loss (GAoHL) charity day was created to address the need for an **annual public educational event** on common causes of hair loss and to raise the awareness that quite simply, **hair loss matters** to people.

GAoHL will be your opportunity to get all the latest in hair loss and its treatments directly from **leading UK experts** in hair science, dermatology, trichology, hairdressing, cosmetic camouflage and psychology.

A sneak peak of what's on offer on the day:

- Credible, expert advice and updates on causes and treatments for hair loss and where to get help.
- What it feels like to have hair loss and strategies on how to cope with it.
- Find out if hair transplantation is for you.
- Hair styling tips from the best of the best in hairdressing including Trevor Sorbie, Stephen Nurse, Errol Douglas and Inanch Emir.
- What to look for in your hair products.
- Demos on micropigmentation and microblading.
- A wide range of sponsorship stands with take home goody bags.

**Come and join us on 30th September 2018
and let's Get Ahead of Hair Loss.**
